<b>1. INTRODUCTION .....</b>	<b>5</b>
<b>2. LITERATURE REVIEW .....</b>	<b>5</b>
<b>3. THE DECOUPLING PROCESS OF CHINA'S ECONOMIC GROWTH AND CARBON EMISSION .....</b>	<b>6</b>
3.1. The decoupling turning of China's economic growth and carbon emission.....	6
3.1.1. China's economic growth coupling the increasing growth rate of energy consumption.....	6
3.1.2. China's economic growth coupling with the slowdown growth rate of energy consumption .	9
3.2. The causes for the decoupling of China's economic growth and carbon emission .....	10
3.2.1. The decrease of carbon intensity as the most apparent cause .....	10
3.2.2. The energy saving and carbon reduction policies as the most important cause.....	11
<b>4. THE MEASURES FOR THE DECOUPLING BY DECREASING CARBON INTENSITY IN CHINA .....</b>	<b>12</b>
4.1. The measures on energy-activities for the decrease of carbon intensity in China .....	12
4.1.1. Adjustment of industrial structure to decrease carbon intensity.....	12
4.1.2. Optimizing of Energy Structure to decrease carbon intensity .....	13
4.1.3. Improvement of energy efficiency to decrease carbon intensity .....	15
4.2. The measures on carbon reduction for the decrease of carbon intensity in China .....	16
4.2.1. China's ETS as a significant measure for the carbon reduction .....	16
4.2.2. China's pilot ETS test providing successful experience for the implementation .....	17
4.2.3. EU-China cooperation in the emission reduction .....	19
<b>CONCLUSION .....</b>	<b>20</b>
<b>BIBLIOGRAPHY .....</b>	<b>21</b>
